Birt reviewed the remaining 2019 board meeting dates. A "Doodle" calendar poll will be sent to the board to determine the best date for the January 2020 Board Retreat.

Birt asked the board if there were any topics that they would like to include in the board retreat.

Some suggestions were a deep dive into the strategic plan and taking an aspirational look into the future. Bill Sharpe would like to address the grant evaluation process as a break out session or in a separate Grants and Programs meeting. There was discussion about the value of the CF Fundamentals 101 in 2020 for new board members. The board will send other thoughts to Dan by Friday, October 25.

Ida Lopez Chan presented a synopsis of the 2019 Board self-assessment survey put together with subcommittee members Birt Johnson, Maija West and Nolan Kennedy. The survey covers vision, mission priorities, organization and governance, fiduciary management, advocacy and organization effectiveness and some opened ended questions to gather information about the CFMC board experience. The results will be reviewed at the December board meeting.

TREASURER/FINANCE COMMITTEE – Jan Vanderbilt

Jan reviewed the September financial statements. She focused on line items from total cash and net income including loss and return on investments. She noted the impact, reimbursements and expenses the pending sale of the 3200 17 Mile Drive property will have on the financial statements.

There was discussion that some of the current misconceptions are coming from historic policies and the board suggested the word *myths* be revised to “Did you know... or FAQ.”

GOVERNANCE COMMITTEE – Ken Petersen

Ken reported the committee met to discuss officers and board member nominees for 2020. Dan Baldwin reviewed six board candidates – the goal is to fill three seats for 2020. Committee Members Present: Betsey Pearson, Chair; Betsy Buchalter Adler (by phone), Greg Chilton, Elsa Mendoza Jimenez and Ken Petersen

CFMC Staff Members Present: Laurel Lee-Alexander, Diane Nonella and Janet Shing

Call to Order: The regular meeting of the Endowment Stewardship Committee of the Community Foundation for Monterey County (CFMC) was called to order at 2:01 PM by Betsey Pearson at the CFMC's Monterey office.

Approval of minutes: Motion: Ken Petersen/second: Greg Chilton; motion carried.

Update

Dan Baldwin attended this first portion of the meeting to thank the committee and answer any questions. Staff provided updates to the issues raised at the last meeting.

- The Committee reviewed CFMC's current template for endowed designated funds, as requested from the last meeting. Dan clarified that designated funds rarely have a fund agreement as they are often created as part of an estate. They are used for agency endowments and when a donor advised fund is converted to an endowed fund.
- The Boys and Girls Club of the Monterey Peninsula Fund was reviewed at the November 19, 2018 meeting. The fund name reflected the nonprofit's name at the time the fund was established. When the organization grew, it revised its legal name accordingly; however, the fund name remained the same. Staff asked the organization to confirm and it requested CFMC update the fund name to "Boys & Girls Clubs of Monterey County Fund". This change has been made in CFMC's database.
- The York School Fund was also reviewed by the committee on November 19, 2018. The early correspondence referred to the fund as both a scholarship endowment and for unrestricted support. Staff consulted with Dan, who sees the fund as an agency endowment, then asked York School to clarify. York requested the fund name remain as it is and that the purpose be for operating support.
- Staff reviewed all three funds benefitting Casa Amesti with Dan Baldwin. Each fund was established to address specific needs to preserve the adobe and to meet the requirement of the trust. The Herman Fletcher Fund was created to ensure its perpetual maintenance. No grants have been made since 2003. One requirement of the of the trust is that an endowed fund of at least \$500,000 be available for building maintenance. The Casa Amesti Foundation Building Fund was established to preserve and maintain the three historic rooms on the second floor. The fund has made payments on a reimbursement basis. The Garden and House Fund is a non-endowed fund but the committee reviewed to better understand the role of the two endowed funds. The fund has made annual reimbursements nearly every year over the last 21 years, also on a reimbursement basis.
- Monterey County Symphony Association Fund requested to keep the fund name as is. This reflects the nonprofit's legal name.
- Elkhorn Slough Foundation's James Rote & Les Strnad Scholarship Fund requested to keep the fund name as it was originally established.
- Shelley Ann Watts Scholarship Fund has been updated to include her middle name "Ann" as originally instructed.
- CFMC's Executive Committee exercised its variance power at its July 16, 2019 meeting and updated the criteria of the Harles R. Sarment College Endowment to use funds for scholarships, not "tuition" and to include two-year colleges.

- As discussed, staff added background information and a glossary to the Committee description. The committee agreed that it would like to see all grant history understanding that only partial information is available for grants made in 1999 and earlier due to the change in databases.

The committee accepted staff's explanation and agreed that no further action is needed.

Fund Review

Committee members reviewed fund summaries, grant history and legal agreements of 14 funds. Betsey facilitated the committee's discussion of these funds.

Restricted Agency Endowments

1. Alliance on Aging Endowment Fund
 - Continue making annual payouts
2. Food Bank for Monterey County Endowment Fund
 - Continue making annual payouts
3. Girl Scouts of California's Central Coast Endowment Fund
 - Continue making annual payouts
4. Carmel Public Library Foundation Fund
 - Continue making annual payouts
5. Carmel Public Library Foundation Fund = Children's Fund
 - Continue making annual payouts
6. Bishop Kip Fund for All Saints' School
 1. Continue making annual payouts but update internal records to show purpose is operating support, not scholarships.
 2. Confirm if the school would like to revise the fund name to include "Episcopal Day School", as reflected in its legal name.
7. Laurie Boone Hogen Appreciation Fund for Excellence in Teaching

The committee noted that the 2015 payout for "operating" was an internal error.

 1. Continue making annual payouts
 2. Confirm if the school would like to include "Elementary" in the fund name, as stated in the original instructions and if elementary is grade specific.
8. All Saints' Day School Endowment Fund

The committee had a brief discussion regarding why the school has five endowed funds. The oldest fund, Kip, is what we would consider a designated fund; the fund was created by a gift from a donor, not the nonprofit. The Kip Fund is categorized as a restricted fund because CFMC did not have a separate designated category at that time. Four of the funds were established to honor a specific person. The school opened its agency endowment fund two years ago simply for fundraising purposes. It is a generic fund to benefit the school and won't confuse donors by the honoree's name.

 - Continue making annual payouts

At this point in the discussion, the Committee discussed historical balances and what is the difference in roles between the Investment Committee and Endowment Stewardship. Going forward, fund summaries will include the historical balance or the cumulative endowed principle.

Designated Agency

9. Hester Hyde Griffin Fund for All Saints' School
 1. Continue making annual payouts for the purpose of "faculty salaries" not faculty development and incentives.
 2. Confirm if the school would like to revise the fund name to include "Episcopal Day School", as reflected in its legal name.
10. Gloria S. Daly Endowment Fund for All Saints' Day School
 1. Continue making annual payouts
 2. Confirm if the school would like to revise the fund name to include "Episcopal Day School", as reflected in its legal name.

Restricted Scholarship

11. James Bliss & Annette Sward Forestry & Nursing Scholarship Fund
 - Continue making annual scholarships
 - Committee requested documentation with Sward's wishes for nursing scholarships and more information as to how annual funds are split between Bliss and Sward scholarships.
12. Bill Clapper Memorial Music Scholarship Fund
 - Continue making annual scholarships
13. Horace H. Wilson Scholarship Fund
 - Continue making annual scholarships
 - Committee requested more documentation if the donor's wishes were to support one student each year and if it is possible for the fund to award four- or multi-year scholarships.

Unrestricted

2020 Operating Budget Notes & Assumptions

2019 YEAR END

Current year-end projection includes net income of \$464,812.

Year-end projections include:

Contribution revenue is over budget, primarily due to receipt of bequests from the estates of Mary Shaw, Paulia Bell, Peter Hatton and Gloria Dake, and the termination of CRTs from Sue Antle and Terry Haber. Also, the 2% fee from the sale of the de Guigne property is included in the year-end forecast, less the amount taken in 2018, for a total of \$371,345. The forecast assumes the annual appeal generates the budgeted amount for individual contributions.

Administrative fee revenue is under budget. Due to drop in the market in the 4th quarter of 2018, the 2019 administrative fees have been lower than budgeted.

Fees from CRTs are under budget due to the drop in the market in the 4th quarter of 2018, and the termination of the Sue Antle CRT.

Interest income is higher than budgeted due to investing excess money market funds in higher yielding CDs.

Personnel costs are lower than budgeted due to positions being vacant for a period of time.

Administrative cost variances are as follows:

- Computer Maintenance – higher due to the move to the cloud and additional services
- Bank Charges – higher due to the increase in credit card contributions
- Postage – higher due to increased number of acknowledgement letters, and mailings for North and South County events
- Contract Services – higher due to 2018 invoices for the MC Gives temp not received until 2019
- Legal Services – lower due to fewer legal expenses than expected
- Misc. Admin Expense – lower due to no WF lunch proceeds transfer, because there was not enough received from ticket sales and sponsorships to pay for the event
- Depreciation Expense – reduced due to the timing of capital purchases

Occupancy, and Development and Staff costs are slightly under budget.

IV. **Statement of Investment Philosophy**

- A. The Foundation's investment objective is long-term growth and preservation of capital. Accordingly, the portfolio shall be invested to provide safety through diversification in a portfolio of common stocks, bonds, cash equivalents, and alternative investments, all of which may reflect varying rates of return.
- B. The BOD and the Investment Committee are committed to: (1) protecting the corpus of the portfolios; (2) obtaining adequate investment returns sufficient to meet the Foundation's current and expected future financial requirements; and (3) complying with applicable law.
- C. The portfolios shall be managed in a prudent manner, as defined by the Uniform Prudent Management of Institutional Funds Act, recognizing risk and return trade-offs. Sufficient liquidity shall also be maintained to meet the Foundation's obligations for grant making and fees.
- D. The BOD and Investment Committee's policy regarding investment risk is consistent with modern portfolio theory, in recognizing that risk cannot be eliminated but should be considered and evaluated.

V. **Investment Program and Asset Allocation**

The Foundation's invested assets reside in three portfolios, each with its own distinctive asset allocation: the Long-term Portfolio, the Medium-term Portfolio, and the ESG Portfolio (described below). While all are diversified in their investments, a risk of principal is present in each portfolio. The asset allocations provided in Appendix A shall serve as the guidelines for each portfolio's investments.

Long-term Portfolio

The Long-term Portfolio is designed for donors or nonprofits with 7-plus year grant making objectives.

Medium-term Portfolio

The Medium-Term Portfolio is designed for donors or nonprofits with 3-5 year grant making objectives.

ESG Portfolio

The ESG Portfolio emphasizes investments that prioritize Environmental, Social and Governance (ESG) criteria. The ESG Portfolio is designed for donors or non-profits with 7-plus year grant making objectives and who wish to utilize ESG filters.

COMMUNITY FOUNDATION FOR MONTEREY COUNTY

INVESTMENT POLICY STATEMENT

VI. Investment and Performance Objectives

The Investment Objectives for the portfolios are for the asset value, exclusive of contributions and withdrawals, to grow over the long-term and earn, through a combination of investment income and capital appreciation, a rate of return (time-weighted total return gross of fees) equal to or greater than the returns of the benchmark established for the appropriate portfolio. Performance benchmarks are included in Appendix D.

For the Long-term Portfolio, there is the additional objective for a real rate of return that meets, or exceeds, the Foundation's spending policy for endowed funds and expenses. It is understood that in a low return environment, the purchasing power of the portfolio may not be maintained.

Performance Objectives

- A. The performance objective of each portfolio is to earn a return that is equal to or greater than a weighted average return of the appropriate indexes for each asset class noted in Appendix A, weighted in accordance with the target allocation for each asset class.
- B. Each actively managed fund is expected to exceed its corresponding benchmark index as well as the median return in a representative performance universe.

VII. Asset Class Definitions & Investment Guidelines

It is the intention of the Committee to allow each investment manager full investment discretion within the scope of their respective applicable Investment Manager Agreement or prospectus, and any laws that supersede these documents. The Investment Committee may elect to invest in Funds such as (but not limited to) commingled trusts, limited partnerships, exchange traded funds, investment grade exchange traded notes, or mutual funds. In these cases, the investment guidelines set forth in the Fund's prospectus, offering memorandum or agreement will govern. Each separate account investment manager must adhere to the following investment guidelines as well as their specific guidelines unless explicitly advised in writing by the Investment Committee.

- A. Asset Class Definitions: The following is intended to provide clarity as to the intent of the BOD to allow allocations to sub-asset classes within the strategic asset allocation shown in Appendix A. The Investment Committee has authority to select and set target allocations to sub-asset classes.
 - 1. Global Equities include publicly traded securities issued across all markets, including (but not limited to) the United States and other developed countries, as well as emerging and frontier countries. Sub-allocations may include country- or sector- specific strategies, as well as those identified by specific style or market capitalization factors. Allowable securities include common stocks and depository receipts (eg. GDRS, ADRS). The equity portfolios shall be well diversified to avoid undue exposure to any single economic sector, industry, or individual security.

COMMUNITY FOUNDATION FOR MONTEREY COUNTY

INVESTMENT POLICY STATEMENT

2. Fixed Income include publicly traded debt instruments across all markets and issuer types. While the category generally refers to an intermediate investment-grade domestic fixed income management style typified by the Barclays U.S. Universal Bond Index, it is the intention of this policy to allow strategic or tactical exposures to below investment grade, foreign, and/or varying durations. This may include specific exposures to foreign, high yield, bank loans, foreign and emerging market debt denominated in both hard and local currencies, and related multi-asset fixed income strategies. Allowable securities include U.S. Government and agency securities, corporate notes and bonds, mortgage-backed securities, preferred stock, below investment grade, and debt issuances of foreign governments and corporations. The fixed income portfolios shall be well diversified to avoid undue exposure to any single economic sector, industry, or individual security.
3. Alternative investments include real assets, private markets, diversifying strategies and the Foundation's Community Impact Investments.

Real assets refer to real estate of a publicly traded or private nature, infrastructure and commodities instruments not requiring physical delivery. Instruments utilized may include partnerships, funds, trusts, REITs, ETFs, ETNs, derivatives and other similarly structured vehicles. The interests may be of liquid or illiquid nature.

Private Markets refers to limited partnership interests in funds investing in the equity or debt structure of non-publicly traded companies. This may include venture, distressed, mezzanine, buyout, secondaries, funds-of-funds or other related non-public and/or opportunistic approaches. These interests are typically of an illiquid nature, requiring multi-year lock-ups of capital.

Diversifying Strategies refers to a broad categorization of investment strategies commonly referred to as "hedge funds" and typified by more complex and often opaque investment strategies, less liquid investment terms and typically performance-based fees. Funds will typically feature strategies involving leverage, shorting, frequent trading, and derivative among other approaches. This category specifically includes hedge funds, alternative beta, and related strategies.

- B. Prohibited Investments: Categories of investments that are not eligible for investment without prior approval of the BOD include:

1. Short sales;
2. Margin purchase or other use of lending or borrowing;
3. Security loans;
4. Leveraged derivatives; and
5. Alternative asset investments may utilize the above categories so long as such investments are consistent with the portfolio's goal of stable returns with low volatility. Investments in alternative strategies will be limited to mutual funds and ETFs that are registered with the SEC.

COMMUNITY FOUNDATION FOR MONTEREY COUNTY

INVESTMENT POLICY STATEMENT

- C. Proxy Voting: The investment managers shall have the sole and exclusive right to vote any and all proxies solicited in connection with the securities held in their respective portfolios.
- D. Trading and Execution: The investment managers shall use their best efforts to obtain execution of orders through responsible brokerage firms at the most favorable prices and competitive commission rates.
- E. Environmental Social & Governance (ESG) strategies: The investment managers shall incorporate environmental, social and governance factors as components of the decision-making and portfolio construction process.

VIII. Rebalancing procedure

The Committee will review the current asset allocations and endeavor to keep the portfolios within the ranges shown in Appendixes A and C.

Contributions and withdrawals will primarily be used to rebalance the portfolios towards their respective asset allocation targets. However, the Committee may elect to rebalance through the sale and purchase of portfolio assets.

IX. Investment Performance Review, Evaluation and Corrective Action

- A. The Investment Committee, with the assistance of the Investment Consultant, will review the investment results of the investment manager(s) quarterly. Performance comparisons will be made against a representative performance universe and the performance objectives set forth in this IPS.
 - 1. The objective of an index fund is to match the respective index on a gross basis while the objective of an active manager is to exceed the return of the respective index on a net of fee basis. Additionally, active managers are expected to perform in the top half of their peer group. Performance benchmarks are included in Appendix D.
- B. The Investment Committee, with the assistance of the Investment Consultant, shall periodically review the qualitative developments of each investment manager.
 - 1. This evaluation shall include changes in ownership, personnel turnover, adherence to investment style and philosophy, and any other criteria the Committee deems appropriate.
- C. The investment manager(s) must disclose all major changes in organization or investment philosophy to the Investment Consultant within 30 days. The investment consultant will report changes to the Investment Committee at the next regularly scheduled meeting, unless the investment consultant determines the change warrants notification prior to the meeting. Further, all registered investment advisors must present updated ADV-2 forms on an annual basis to the Investment Consultant.

COMMUNITY FOUNDATION FOR MONTEREY COUNTY

INVESTMENT POLICY STATEMENT

D. Corrective action shall be taken as a result of the ongoing review process for investment managers. While there may be unusual occurrences at any time, the following are instances where corrective action may be in order.

1. Any organizational change that may materially affect the management process will be noted by the Investment Consultant and discussed with the Investment Committee. If the Committee deems appropriate, the investment manager may be called upon to discuss changes. Violation of terms of contract without prior approval of the Investment Committee constitutes grounds for termination.
2. As part of its overall asset allocation strategy, the Investment Committee will select managers with certain styles and approaches to portfolio diversification. Therefore, it is critical that managers adhere to the original intent of the Committee. Should the consultant ascertain that significant changes in investment style have occurred, this may be grounds for termination.
3. Managers may be replaced at any time as part of an overall restructuring.

X. Spending Policy

The BOD's objective is to establish a spending policy that balances the Foundation's shorter-term grant making goals with the longer-term goal to sustain fund balances that provide grant making capability in perpetuity.

For the purpose of the spend rate discussion, fund balances are based on a rolling 12-quarter average. The spendrate will be reviewed annually by the Investment Committee, which then makes a recommendation to the BOD.

XI. Conversion of Securities and Other Assets:

The Foundation has a separate Gift Acceptance Policy (GAP). The GAP states that the Foundation's practice is to liquidate all gifts promptly. On occasion, the Gift Acceptance Committee may recommend not to liquidate certain gifts immediately. In such cases, the decision not to liquidate a gift will be brought to the BOD for approval. Factors the Gift Acceptance Committee may consider shall include, but not be limited to:

- A. Market conditions: a gift may be retained for a reasonable period of time if the likely sale price would be substantially less than the asset's real value. Similarly, a large block of stock might be sold over a period of time in order not to artificially depress the price;
- B. Use by the Foundation: the Foundation may elect to keep gifts that it will employ directly in furtherance of its exempt purposes. For example, the Foundation might keep real property that it will use as its offices;
- C. Desirability as an investment: on rare occasions, the Foundation may be given property that it wishes to retain as an investment. Considerations in this decision include the projected return and how the asset fits into the Foundation's investment portfolio.

COMMUNITY FOUNDATION FOR MONTEREY COUNTY

INVESTMENT POLICY STATEMENT

XII. Policy Changes

The Investment Consultant shall advise the Investment Committee of any restrictions within this IPS that may prevent the investment manager(s) from obtaining the objectives and goals set forth herein. Any violation of the investment guidelines or other sections of this IPS discovered by the Investment Consultant in the preparation of its regular performance review shall be reported immediately to the Committee and discussed at its next regularly scheduled meeting.

XIII. Investment Policy Review and Revisions

The BOD reserves the right to amend the IPS at any time.

The IPS shall be reviewed periodically to ensure compliance and relevance to current law, financial and economic trends, and to meet the cash flow requirements of the Foundation.

IN WITNESS HEREOF, the Board has approved this Investment Policy Statement by resolution adopted on the _____ day of _____ 20__.

The assets residing in the Foundation's three portfolios, referenced in Section V of the IPS, represent endowed and non-endowed funds. These funds are of many types, and are detailed below.

Donor Advised: Donor advised funds allow donors to place charitable assets at the Foundation and retain the ability to recommend grants over time. Donors receive a tax deduction in the year they add to the fund. Donor advised funds can be endowed or non-endowed.

Designated: Designated funds are generally created through estate gifts. The name derives from the donor's ability to designate specific nonprofits as beneficiaries of the grants produced by the fund. Designated funds are generally endowed.

Scholarship: Scholarship funds support students as they enter higher education. They can be for one or multiple years. Scholarship funds can be endowed or non-endowed.

Field-of-Interest: Field-of-interest funds describe a donor's area of interest, such as the arts, education, healthcare, the environment or animal welfare. They are generally funded through estate gifts, and typically are endowed.

Unrestricted: Unrestricted funds provide the Foundation the ability to respond to needs as they emerge over time. They are the most flexible form of grant making fund at the Foundation. They generally come from estate gifts, and typically are endowed.

Stewardship: Stewardship Funds consists of assets placed at the Foundation by nonprofit organizations. These funds allow nonprofits to benefit from the Foundation's investment expertise and economies of scale yet offer 100% liquidity. Stewardship funds are non-endowed.

Agency Endowment: Agency Endowment Funds are permanently endowed funds placed at the Foundation by nonprofit organizations. As with Stewardship Funds, Agency Endowments relieve the burden of investment decisions from the nonprofit. They also provide a secure environment for funds that are intended to be permanently endowed.

Assets residing outside of the Foundation's three portfolios, referenced in Section V of the IPS, include the following:

Charitable Remainder Trust (CRT): A CRT is a non-revocable tax-exempt trust which annually distributes income to the donor or designated recipient. There are generally two types: a Charitable Remainder Unitrust (CRUT) and a Charitable Remainder Annuity Trust (CRAT). Both types used a fixed interest rate. However, a CRUT is revalued annually and the interest rate is applied to the new value. A CRAT creates a fixed payment based on the value of the initial gift. A CRUT can be added to; a CRAT cannot. When the CRT ends, the remaining principal (the remainder) creates an endowed fund at the CFMC (the donor retains the ability to immediately grant 75% of the remainder; a minimum of 25% must remain with the CFMC). This fund can benefit the nonprofit(s) of the donor's choice, create a donor-advised fund (overseen by donor advisors named by the donor) or support the CFMC's general grantmaking.

Charitable Gift Annuity (CGA): A charitable gift annuity is a non-revocable tax-exempt annuity which produces an annual fixed dollar value distribution for the life of the donor, based on the amount of the gift and the donor's age when the annuity is established. When the annuity ends, the remaining principal will become available to benefit the nonprofit(s) of the donor's choice, or CFMC's general grantmaking. 100% of the remainder value must stay with the CFMC as an endowed fund.

How it works If you currently manage assets for a client (for example, a stock account, charitable remainder trust, IRA, etc.) that are intended to establish a gift to the CFMC, and you or your institution would like the opportunity to manage the asset as the Donor Recommended Investment Manager, the following must occur:

- The client/donor must provide a written recommendation that your firm's services be retained to manage the assets that will be donated to, and owned by, the CFMC.
 - Such recommendation must hold CFMC harmless
 - Donor must represent that the Investment Manager is not a related party
 - The Investment Manager must meet regulatory and registry requirements as provided for by the CFMC. All managers within the portfolio must meet regulatory and registry requirements as provided for by the CFMC
- The CFMC retains ownership of the assets managed by the Investment Manager.
- The CFMC and the Investment Manager will enter into a written Client Agreement.
- The donated asset must have a minimum value of \$1 million.
- The fund, if endowed, will be governed by CFMC policies relating to endowed funds, including the establishment of the annual payout rate, and adherence to the Uniform Prudent Management of Institutional Funds Act (UPMIFA), as interpreted by the CFMC.

"This policy allows high net worth clients to maintain their investment relationship while benefiting the community through the CFMC."

VERUS NOVEMBER CAPITAL MARKETS UPDATE

THE ECONOMIC CLIMATE

- The ISM Manufacturing PMI ticked down from 48.3 to 48.1, missing expectations of 49.4. For the fourth straight month it remained under the neutral level of 50.0 in contractionary territory. Export orders fell 2.5 points to 47.9 and the decline was likely impacted by the ongoing U.S. - China trade dispute.
- The unemployment rate ticked down to 3.5% (exp. 3.6%), in line with 50-year lows experienced in 1969.
- The Federal Reserve's most recent term repurchase-agreement operation, which was designed to provide \$25B in liquidity to market participants through the year-end, was oversubscribed by \$18B. The Fed previously increased the size of the operation from \$15 to \$25 billion, but demand for year-end financing so far has exceeded the supply the NY Fed has made available.
- Economic data out of China continued to show signs of weakness. Year-over-year growth in retail sales fell to 7.2% in October, down from 9.8% at the end of Q2 and missing expectations of 7.9%. Industrial production fell short as well and grew 4.7% year-over-year compared to expectations of 5.4%.

MARKET PORTFOLIO IMPACTS

- The S&P 500 Index continued to climb higher, gaining 3.6% over the period and bringing its year-to-date return to 27.6%. Stronger than expected earnings as well as views that U.S. and Chinese negotiators were nearing a deal likely supported the advance of the index.
- Ten-year Treasury yields ticked up over the period from 1.69% to 1.78% and reached intra-month highs of 1.94% due in part to positive news flow regarding U.S. - China relations.
